Chapter 176 - Interlude: Forum (13 Demon Kings Edition)

1 Nameless Adventurer ID:tfdykgr

The naming of the 13 S Rank Demon Kings hasn't been decided yet, has it?

2 Nameless Adventurer ID:maskeri

You mean the Demon Kings whose Domains have been labeled with a Hazard Rank S?

3 Nameless Adventurer ID:serbdkw

Is this the correct thread to reveal my 'source of knowledge' (Archive) to the world?

4 Nameless Adventurer ID:ldkeifx

Okay then, I'll start off — The Demon King of Fukuoka City, my hometown, is the Evil Princess of Fierce Battle — Mei

5 Nameless Adventurer ID:lodswak

I guess I'll expose the darkness. Yokohama's Demon King is Commander — Yui.

6 Nameless Adventurer ID:tfdykgr

>>4-5

That's not it. What I'm talking about is a general term for the 13 Demon Kings, something like The Top 13 Demon Kings.

7 Nameless Adventurer ID:cndjwie

>>6

Dude, say that first!

8 Nameless Adventurer ID:dleoask

It's 13 of them, right? How about Zodiac then?

9 Nameless Adventurer ID:pdoelai

Zodiac, what's that again?

10 Nameless Adventurer ID:lskeifc

>>9

The 13 star signs in the zodiac star constellation, got it? j/k

11 Nameless Adventurer ID:pdoelai

>>10

Hah? Man, that thing has 12 star signs, just so you know.

12 Nameless Adventurer ID:lskeifc

>>11

There ain't no serpent bearer, or shit like that. Just start over, k?

13 Nameless Adventurer ID:mnskwid

Chill out, guys.

The Demon Kings are fighting amongst each other, so how about "The 13 Kings (Tousouou)." Isn't it great? It covers 13 and conflict. [efn_note]Tousouou = conflict (tousou - 鬭争) + kings (ou - 王)

[/efn_note]

14 Nameless Adventurer ID:wdfgsqz

13 Demon Kings, in other words: 13 devil lords, right? Then, how about Devil Dozen?

15 Nameless Adventurer ID:mskeidjrf

>>14

Hello? Dozen equals 12, you know?

16 Nameless Adventurer ID:nfeszay

>>15

It's a dozen devils, so there's 13 of them! ggrks [efn_note]Japanese net slang for "Google it you fucking idiot." See urbandictionary[/efn_note]

17 Nameless Adventurer ID:opwkcsa

13 is a taboo number, so what about Taboo Kings? Demon Kings are calamities anyway.

18 Nameless Adventurer ID:yuikmnh

We're Law, and they're Chaos, right? How about Chaos Numbers? Sounds neat, no?

19 Nameless Adventurer ID:eokmsed

Having stayed in bed on the day before the Cataclysm, I'm a Neutral.

20 Nameless Adventurer ID:yuikmnh

>>19

Stay strong, man.

21 Nameless Adventurer ID:xdfredf

The Thirteen Calamities (災殃)? [efn_note]Written as 13 災殃 (災 (wazawai) - calamity - 殃 (wazawai)). Matters below.[/efn_note]

22 Nameless Adventurer ID:dakiocl

>>21

Thirteen Calamities (災)...no?

23 Nameless Adventurer ID:xdfredf

>>22

災殃 (Saiou)

It means calamity.

24 Nameless Adventurer ID:loekcjd

'Unwanted 13 Evils' (Loki)

25 Nameless Adventurer ID:skdiejc

The Loki ratio among chuunibyouten patients is abnormally high.

26 Nameless Adventurer ID:lkjseud

Rather, isn't it fine to just go with Zodiac now?

27 Nameless Adventurer ID:mkowias

Z (Zone) O (occupied) D (Demonic) I (Intelligence) A (And) C (Colonies)

In short, Zodiac, correct?

28 Nameless Adventurer ID:dkcjdeis

>>27

What does that even mean?

29 Nameless Adventurer ID:mkowias

Devilish, smart people running Domains, and the land ruled by them.

30 Nameless Adventurer ID:lowkcjd

>>29

How marvelously on point rofl.

31 Nameless Adventurer ID:deoksw

13 Demon Kings ruling over the lands — XIII Rulers

32 Nameless Adventurer ID:bkawdds

How about the 13 Pillars at the Dawn of a New Age

33 Nameless Adventurer ID:lowaisd

Isn't 13 Apostles (shito)...Death Bringers (shito), or something like that good?

34 Nameless Adventurer ID:qolskxd

My right eye throbs...

The Thirteen Evil Stars, relics that I sealed away in the past

35 Nameless Adventurer ID:uiksedc

At this point, we might as well go with 『Heart-throbbing☆Chaos☆Demon Kings』?

36 Nameless Adventurer ID:eruidks

lmao

Afterwards, many more suggestions followed.

923 Nameless Adventurer ID:liedcaw

If you tally the numbers, Zodiac has the most supporters. The runner-up is 『Heart-

throbbing☆Chaos☆Demon Kings』.

924 Nameless Adventurer ID:xcdwsdf

Wouldn't it kinda suck if Japan was ruled by the 『Heart-throbbing☆Chaos☆Demon Kings』?

992 Nameless Adventurer ID:xsedifr

Looking at the other opinions, doesn't Zodiac lack a bit of an impact?

993 Nameless Adventurer ID:xlacowsd

The Zodiac are star signs, right? What if we go with "Thirteen Evil Stars (Zodiac)"?

994 Nameless Adventurer ID:ckwidoc

We're soon going to hit 1000. Isn't it fine like that, seeing how we won't get anywhere even if we continue this thread indefinitely.

This settles "Thirteen Evil Stars (Zodiac)." However, Ophiuchus, the Serpent Bearer, is Nagano's Demon King, Nanashi. That's the only thing I won't compromise on!

The name of the 13 Hazard Rank S Demon Kings, which has been decided in such a way, spread across forums, blogs, and SNS. At the point when the mass-media started to use it as well, it had become widely known in society.
